

Ability Athletics Morning

This is our third trip to Stantonbury Stadium and we always have a great morning working on our Running, jumping and throwing techniques. It is really great to see our children working alongside children from other schools and using their listening skills with the MK College Sports Leaders who lead each individual event.

The children had the opportunity to try out the Hurdles, the Long Jump, Vortex throwing (Javelin) and the Hammer, finishing off with a mass running lap of the track. Well done to all the children who took part this year.

Verity, Helen and Mel
