

Home School Learning

Class: Furzton

Topic: Colours

In School we will...

At home you could.....

Communication and Interaction:

- The children will have the opportunity to share and explore lots of sensory resources related to our topic 'colours'.
- Our sensory story is called Rainbow Wish and there is also a coloured themed tacpac to build on their individual communication targets and needs.
- This term we are going to focus on making choices during our daily songs hello and goodbye.

Communication and Interaction:

- At home you could read stories based on colours and rainbows.
- Go for listening walks in your community eg. Leaves changing colour, hear the leaves crunching and the wind whistling
- Encourage your child to make choices at home eg. snack time, their clothing or their toys.

Social, Emotional and Mental Health:

- In class we will provide opportunities to share activities with class friends such as parachute games, resonance boards, swing and music sessions.

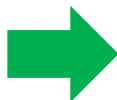

Social, Emotional and Mental Health:

- Provide opportunities to experience a range of different environments and to interact with different people.
- Encourage to express when your child wants more of an activity or when they want an activity to end through signing, hand gestures or verbalisations.

Sensory and Physical:

- We will continue to develop fine and gross motor skills across the curriculum e.g. art activities and music with movement sessions.
- During PE students will have the opportunity to use large pieces of equipment such as bikes.

Sensory and Physical:

- Continue following your child's physio plan at home.

Independence and Community Participation:

- To make meaningful choices eg. what toys to play with, what snack to eat and to decide which adult they prefer to work with
- Understanding expectations and boundaries within the community

Independence and Community Participation:

- Give your child lots of choices to encourage them to communicate preference.
- When out in the community keep expectations clear and consistent.

Cognition and Learning:

- Through a range of structured activities we will be developing your child's attention and concentration
- We will also be providing opportunities for your child to experience a range of cause and effect toys.

Cognition and Learning:

- Continue playing with your child using a range of sensory, cause and effect toys and explore the world around them.
