T

The Redway School
an 'extra special' special school within Milton Keynes

The Redway School focuses on meeting the needs of all pupils, both collectively and individually. We are committed to providing an enjoyable, quality education for all our pupils within a friendly atmosphere where they can fulfil their potential, grow in confidence and most importantly be happy. We believe that the school is successful in encouraging every child to feel valued in an environment where all achievements, however small are recognised and celebrated.

We believe strongly in working closely with parents and carers and welcome all contributions to the education of your children.

We provide a high quality education, and believe in developing our pupil's basic skills with a particular emphasis on literacy, communication and numeracy as well as developing skills for independent life.
